

ACS & UNCTAD Exploring Training Opportunities

The ACS Directorate of Cooperation and Resource Mobilisation has met with the United Nations Conference on Trade and Development (UNCTAD) exploring the possibility of training activities in some of the focal areas of ACS work. UNCTAD offers courses on statistics, ecommerce, digital identity for development among others. Both the ACS and UNCTAD agreed to continue discussing potential joint work for the benefit of ACS membership. UNCTAD has a history of collaborating with the ACS on programmes for trade development in the Greater Caribbean.
